08/02/01	A01-02-035	AT&T Communications of California, Inc. and WorldCom, Inc., for the Commission to Reexamine the Recurring Costs and Prices of Unbundled Loops in its First Annual Review of Unbundled Network Element Costs Pursuant to Ordering Paragraph 11 of D.99-11-050.
	A01-02-024	AT&T Communications of California, Inc. and WorldCom, Inc., for the Commission to reexamine the recurring costs and prices of unbundled switching in its first annual review of unbundled network element costs pursuant to Ordering Paragraph 11 of D99-11-050.

Summary: On July 30, 2001, David Dorman, President of AT&T Communications of California, Inc. (AT&T), met with Cmmr. Brown in San Francisco. Also present were Robert Wullenjohn, advisor to Cmmr. Brown, and Ken McNeely, President of AT&T California, and Rose Johnson, Vice President of Government Affairs of AT&T.

Dorman explained why Pacific Bell's current unbundled network element prices are not in compliance with the Telecommunications Act and serve as a barrier to competitors attempting to enter the residential local exchange market.

08/02/01	A01-01-010	Pacific Bell Telephone Company, for Arbitration of an Interconnection Agreement with MCImetro Access Transmission Services, L.L.C. (U-5253-C) Pursuant to
----------	------------	---

Section 252(b) of the Telecommunications Act of
1996.

Summary: On July 30, 2001, Cynthia Marshall, Senior Vice President of Regulatory & Constituency Relations of Pacific Bell Telephone Company (PacBell), met with Trina Horner, advisor to Cmmr. Lynch, in San Francisco. Also present were Stephanie Krapf, Attorney, Pacific Telesis Group, and Yvette Hogue, Executive Director of Regulatory Matters, and Renee Stiles, General Manager of Regulatory Proceedings, for PacBell. Written material (attached to the notice) was used. PacBell representatives stated that the final arbitrator's report (FAR) improperly rules in favor to MCImetro Access Transmission Services, LLC (MCIIm). PacBell emphasized that the FAR incorrectly adopts MCIIm's proposed Directory Assistance Listings rates and that those rates are below PacBell's costs for providing those listings. PacBell stated that the FAR incorrectly orders PacBell to provide OS & DA as UNEs on the ground that MCIIm's proposed customized routing solution allegedly is technically feasible and PacBell has refused to implement it. Referring to dark fiber prices, PacBell stated that the FAR erroneously excludes investment costs. PacBell argued that the FAR erroneously finds that MCIIm may resell PacBell's wholesale products and services to other wholesale customers. PacBell asked to reconsider the FAR's position on these issues.

08/02/01 A00-06-032 Southern California Gas Company, for authority to implement a rate for peaking service as ordered by D.00-04-060.

Summary: On July 30, 2001, Thomas Beach, consultant to Watson Cogeneration Company (Watson) and Watson's expert witness, participated in an all-party meeting with Cmmr. Lynch in San Francisco. Also present were Trina Horner, advisor to Cmmr. Lynch, Julie Halligan, advisor to Cmmr. Bilas, Laura Krannawitter, advisor to Cmmr. Duque, and other attendees listed on the attachment to the notice. Beach stated that Watson had the potential to expand its cogeneration facilities in the Los Angeles Basin, and that a key issue is obtaining a competitive gas supply. Beach explained that new capacity is critically needed in order to provide new supplies that will place downward pressure on the very high gas prices, particularly at bottleneck points. Beach argued that the state had a pressing need for new gas infrastructure, including new interstate capacity that could be added very quickly. Beach indicated Watson's support for the peaking rate that fairly reflects Southern California Gas Company's (SoCalGas) costs to provide peaking service. Beach also noted Watson's support for the alternate decision's adoption of a low-priority interruptible peaking rate at an all-volumetric rate. The only change to the alternate that Beach recommended was the removal of the language that commits to reviewing the new peaking rate in the next SoCalGas biannual cost allocation proceeding.

Summary: On July 30, 2001, Allison Smith, Senior Market Analyst, for Southern California Gas Company (SoCalGas), met with Cmmr. Lynch in San Francisco. Also present were Trina Horner, advisor to Cmmr. Lynch, Laura Krannawitter, advisor to Cmmr. Duque, Julie Halligan, advisor to Cmmr. Bilas, Mark Pocta of the Office of Ratepayer Advocates (ORA), Jeff Hartman, Director of Sales and Marketing of SoCalGas, Claudine Swartz, Manager of Governmental and Regulatory Affairs for Sempra Energy, Mike Florio and Marcel Hawiger of The Utility Reform Network, Avis Clark and Lindsey How-Downing of Calpine Corporation, Jim McTarnaghan, Kern River Gas Transmission Company (Kern) and Questar Southern Trails Pipeline Company, and Tom Beach, Watson Cogeneration Company. Smith stated that SoCalGas took a series of steps in the mid 1990's to restructure stranded costs and alter cost allocation and that this resulted in the competitive rate that is offered today. Hartman stated that on non-system peak days, customers still demand services, and that the peaking rate should cover these costs that are imposed on SoCalGas' system. Smith stated that with regard to the ORA proposal, SoCalGas is concerned about load fluctuation that occurs during the month, which would not be captured by using average monthly usage. Smith encouraged the Commission to consider a floor peaking rate that is higher than the tariff rate. Smith stated that the rate design used by interstate pipelines, which differs from that of the distribution utility, makes it very difficult for SoCalGas to compete and that the peaking rate should address this problem.

Summary: On July 30, 2001, Lindsey How-Downing, counsel for Calpine Corporation (Calpine), attended an all-party meeting with Cmmr. Lynch in San Francisco. Also present were Trina Horner, advisor to Cmmr. Lynch, Julie Halligan, advisor to Cmmr. Bilas, Laura Krannawitter, advisor to Cmmr. Duque, Mark Pocta representing the Office of Ratepayer Advocates, Avis Clark of Calpine, James McTarnahan representing Kern River Gas Transmission Company (Kern River) and Questar Southern Trails Pipeline, Kirk Morgan representing Kern River, Marcel Hawiger and Michael Florio of The Utility Reform Network, Jeff Hartman and Allison Smith representing Southern California Gas Company (SoCalGas), Claudine Swartz representing Sempra Energy, and Thomas Beach representing Watson Cogeneration Company. How-Downing stated that Calpine is seeking to ensure the availability of reliable and economic natural gas supply and transportation arrangements. How-Downing stated Calpine's support for the alternate decision, which offers significant improvements over the existing RLS tariff and the SoCalGas' proposed peaking tariffs. How-Downing stated that the alternate decision would appropriately adopt peaking rates based on customers' actual use of SoCalGas' system peak days and would not impose costs on any other SoCalGas customer. How-Downing also supported modifying the alternate to eliminate the requirement that the Commission review the peaking rate in SoCalGas' next SoCalGas biannual cost allocation proceeding.

Summary: On July 30, 2001, Leslie Katz, Regional Vice President, Regulatory Affairs of Sempra Energy (Sempra), met with Laura Krannawitter, advisor to Cmmr. Duque, in San Francisco. Also present was Claudine Swartz, Manager of Governmental and Regulatory Affairs of Sempra. Written material (attached to the notice) was delivered following the meeting. Katz stated that, after a reasonableness review, San Diego Gas & Electric Company (SDG&E) would have the right to collect the undercollection that has accumulated in the AB 265 balancing account. However, Katz stated that SDG&E's Memorandum of Understanding with the State of California would eliminate the undercollection in the AB 265 balancing account without a new base electric rate increase.
